STATE CANDIDATE SPECIES

The Washington Department of Fish and Wildlife has classified the following 103 species as Candidates for listing in Washington. Some of them already hold a federal designation, such as Federal Endangered (FE), Proposed Endangered (FPE), Threatened (FT), Candidate (FC), or Species of Concern (FSC).

State listed species on reverse.

This information is current through July 6, 1999.

STATE CANDIDATE

Fish and wildlife species that the Department will review for listing as State Endangered, Threatened, or Sensitive.

The Department prepares status reports following procedures in Washington Administrative Code 232-12-297. Each report recommends a listing status for the candidate species considered. Public comment is solicited before the Department takes its recommendation to the Washington Fish and Wildlife Commission, which makes listing decisions. Species shown with an asterisk (*) are currently under review for listing.

Boldface identifies changes made since the previous sheet (October 1998).

Indented lines identify particular stocks that are considered candidates.

A hashmark (#) identifies species or stocks that are candidates only within Puget Sound, the San Juan Islands, and the Strait of Juan de Fuca east of the Sekiu River.
